

UBERLUB EXTREME MINERAL SERIES ENGINE OILS

UBERLUB EXTREME MINERAL SERIES are premium mineral engine oils, designed to provide a high level of protection and performance. High performance base oils and non-ash dispersing additives for diesel and gasoline engine oils, Multigrade viscosity provides additional protection against wear at start-up and under high temperature operating conditions.

Designed to minimize friction and wear, the formulation ensures year round high lubricity throughout all operating conditions. Extended oil drain capability where recommended by the vehicle manufacturer.

UBERLUB EXTREME MINERAL SERIES ENGINE OILS

PROPERTIES AND PERFORMANCES

- Good thermal and oxidation stability resists in-service oil degradation that contributes to filter blocking and sludge formation.
- Provides exceptional protection from piston deposits, oil thickening and valve train wear while minimizing engine sludge formation.
- Special viscosity improvers, anti-wear, anti-oxidant and detergent additives protect and maintain cleanliness in hot running, diesel and gasoline engines.
- Expertly formulated low viscosity formulation.
- Fuel economy potential.
